

BUILDING SERVICES MAINTENANCE

Romec maintains all essential services to your premises including: power, lighting and emergency lighting, heating, air-conditioning, fire alarms, ventilation and water. Romec also installs and remotely monitors building energy management systems (BEMS). Our engineers utilise industry leading hand-held technology, enabling our operators in the National Service Centre (NSC) to transfer information to them instantly. This means our nationwide workforce can respond quickly and efficiently to all your maintenance requirements. The NSC operates 24 hours-a-day, 365 days-a-year.
